## Acceptable Network and Internet Use Policy

### Dakota Valley School District

#### I. Introduction

The Children's Internet Protection Act (CIPA), 47 U.S.C. 6254(h)(5) require public schools to implement certain measures and actions to ensure that students are restricted from accessing inappropriate materials online using school-owned computers. This District's Acceptable Network and Internet Use Policy (hereinafter "AUP") is intended to set forth the specific obligations and responsibilities of all users, including students and staff, who access the District's Network, and to ensure such use complies with the CIPA requirements.

"Network" is defined as any and all District owned computers, servers, hardware or software, the District's local area network, wireless access points, the Internet, Internet 2, the District Intranet, email, chat rooms, other forms of direct electronic communications or other communications equipment provided by the District regardless of the physical location of the user. This AUP applies even when District provided equipment (laptops, tablets, etc.) is used on or off premises of District property or if personal property is connected to internal district network connections or computers.

#### II. Acceptable Use

The Network may be used only as a tool to support and advance the functions of the District as well as its curriculum and educational programs. Access to the District's Network is a privilege and not a right. Users of the Network are responsible for their behavior and communications over the Network and access to Network services will be provided only to those staff and students who agree to act in a considerate and responsible manner and in accordance with the District's Internet Safety Policy and this AUP.

Students may use the Network only in support of educational activities consistent with the educational objectives of the District. Faculty and staff may use the Network primarily in support of education and research consistent with the educational objectives of the District.

Faculty and staff may access the Network for limited personal use but not for any commercial or business use; however, such personal use may not violate any applicable rules and regulations or applicable administrative procedures or interfere with job performance. Use of the Network must be in compliance with applicable laws, including all copyright laws and all materials on the Network should be presumed to be copyrighted.

All members of the staff who wish to use the Network must sign this AUP whenever requested by the District, to confirm that the staff person has read and understands this policy and agrees to abide by it. Each student must sign this AUP upon enrollment in each building; grades PK-4, 5th-8th and 9th-12th to confirm the student has read and understands this policy and agrees to abide by it. Students who are under 18 must have their parents or guardians sign this AUP and submit it to the District.

#### III. Network Etiquette

Users are expected to abide by generally accepted rules of network etiquette (netiquette). These include but are not limited to:

- A. Be polite. Do not send or encourage others to send messages that are abusive or otherwise fall in the definition of Prohibited Use in Section IV.
- B. Use appropriate language. Remember you are a representative of your school on a non-private network. You may be alone on a computer but what you write can be viewed around the world. Do not swear, use vulgarities or any other inappropriate language.

Acceptable Network and Internet Use Policy

Dakota Valley School District

- C. All communications and information accessible via the Network should be considered school district property that you cannot appropriate for your own use without appropriate attribution and consent.

IV. Prohibited Use

Prohibited use includes but is not limited to the following:

- A. *Violating any state or federal law or municipal ordinance, such as: Accessing or transmitting pornography of any kind, obscene depictions, harmful materials, materials that encourage others to violate the law, confidential information or copyrighted materials;*

  1. Using another's account password(s) or identifier(s);
  2. Interfering with other users' ability to access their account(s); or

The student's parent or guardian is responsible for monitoring the author's off-premise use of the Network and ensuring such use complies with this AUP. Use of personal email accounts is not allowed during the school day.

#### VI. Disclaimer

Content filtering and logging have been established to monitor any and all computer activity on district provided computers and networks. No right to privacy shall be construed, nor do academic freedom issues necessarily apply.

The District makes no guarantees about the quality of the services provided and is not responsible for any claims, losses, damages, costs, or other obligations arising from use of the Network or accounts. Any additional charges a user accrues due to the use of the District's network are to be borne by the user. The District also denies any responsibility for the accuracy or quality of the information obtained through user access. Any statement, accessible on the computer network or the Internet, is understood to be the author's individual point of view and not that of the District, its affiliates, or employees.

#### VII. Enforcement

Prohibited use of the Network may, for students, result in disciplinary action up to and including suspension or expulsion from school or, for employees, suspension or termination of employment. Where circumstances warrant, prohibited use of the Network may be referred to law enforcement authorities.

When a school administrator has a reasonable belief that a student has violated a school rule, policy or the law, and there are facts and inferences that would cause a reasonable person to suspect that a search of the student's personal technology device(s) will reveal evidence of a violation of said school rule, policy or the law, the administrator shall have the authority to search such device, provided that the scope of the search relates to the suspected violation giving rise to the reasonable suspicion.
